

Yoddha

3205- R6

UV TRUE FLATBED & ROLL TO ROLL PRINTER

Amplify Productivity

Product Features

- High Performance LED Lamps for Longer Durability and Efficiency.
- High power double AC servo motors on Y Axis.
- Electronically controlled registration pins for higher accuracy and productivity
- 43 platform support points without blind spots.
- Double Y-axis imported 400W AC servo motor.
- Multi-face fine milling integrated aluminum beam.
- White ink Circulation system.

Ceramic Tile

Glass Sheet

Acrylic Sheet

Wood Board

Metal Plate

Specifications

Print Technology	Drop-on-demand, Piezo Electric Inkjet
Print Head	Ricoh Gen6 5PL Industrial Grade Jetting Assembly
Printing Size	3200*2050mm True Flatbed 3200 RTR
Printing Resolution	720*900DPI; 720*1200DPI; 720*1800DPI
Color Configuration	CMYK+W+V; CMYK+LCLM+W+V
Media Thickness	Maximum - 100mm
Printable Media	MDF, Acrylic, Glass, Metal Sheet, PVC Door, Ceramic Tiles, Wood etc.
Image Format	TIFF (RGB & CMKY), BMP, PDF, EPS, JPEG
Ink System	Continuous supply, 2000ml Large bulk system with automatic supply
Ink	LED curable UV inks
Printing Speed	6PSS - 15m ² /h : 8PSS - 13m ² /h
Power Requirements	AC 220V (± 10%); 50HZ; P:5000W
Data Interface	High speed USB 3.0 transmission interface
Operating System	Windows OS (10x64)
RIP Software	Professional Industry Standard RIP S/W
Work environment	Temperature: 20-30°C; Humidity: 40~70%
Weight	1100KG
Equipment Size / Package Size	4570mm* 2161.5mm* 1352mm /4750mm*2250mm*1580
